Urgent Plea For Support! Will the world be silent again?

Turkey Attacks Christian Town In Syria!

Turkey Attacks Christian Town In Syria!

Urgent Plea for Support

Will the world be silent again?

We have been informed by our people in Syria that today (April) Turkish warplanes have been attacking the area around Derik. We heard that there are many casualties.

Turkey also attacked Shengal (Sinjar Mountain) in Iraq the home of the Yazidis

Derek is a Christian town which is part of The Federation of Northern Syria where Kurds, Arabs and Syriac-Assyrian Christians live and govern together and defend together themselves against ISIS.

The Christians in Derik have been part of the fierce resistance against ISIS. They now live in freedom thanks to the freedom of religion in The Federation of Northern Syria that is defended by the SDF.

Our urgent plea to the US, EU and global Christian community is to demand an immediate end to the Turkish attacks on our people. Will the world just sit down and wait until we all are killed and driven away? No country provided our people with arms and they hardly received any political support from any country. Thanks to that Turkey feels that it can do this to us and the Yazidi's.

Do our people not deserve peace and security? We do no longer ask for prayers, we ask for real support. If support does not arrive, if these attacks are not stopped no prayer will help us anymore.

Please contact your MP, Congressman, senator, MEP and Government and support our cry for real help.

We urge President Trump and the European Council to end the genocide against our people and the Yazidi's.
